

KYOCERA

DEVICE MANAGER

# COMPREHENSIVE DEVICE MANAGEMENT.

MONITOR AND MANAGE DEVICES ACROSS YOUR ENTERPRISE.

KYOCERA DEVICE MANAGER PROVIDES ESSENTIAL DEVICE MANAGEMENT FOR UP TO 10,000 DEVICES FROM ONE, CENTRALIZED LOCATION.

Managing a large fleet of MFPs and printers can be a major, time-consuming task for network administrators, especially in instances where multiples devices need to be configured and various applications need to be installed. KYOCERA has eliminated the need for walk-up device administration with KYOCERA Device Manager, an essential application that enables administrators to monitor and maintain large fleets of devices from a single central location. KYOCERA Device Manager is a must-have tool for medium to large enterprises that can help drastically simplify the upkeep of their devices.

Since KYOCERA Device Manager is a server-based solution, it will automatically connect to all your devices on your network once installed. Using the intuitive Administrative Interface (via multiple current web-browsers, such as Microsoft Edge and Safari), you can organize devices into groups, view status and toner levels in real time, and program automated email alerts and reports. New firmware can easily be installed across the fleet, settings can be modified remotely and transferred to other devices, and HyPAS Applications installed and activated on multiple devices from a central location. The comprehensive set of features offered by KYOCERA Device Manager allows for real-time communication between device and application, making fleet management simple, efficient and effective throughout your entire organization.

MANAGE YOUR FLEET EFFICIENTLY with KYOCERA Device Manager

- › **Customizable Toner Settings** - Determine when toner alerts should be sent out, so that new toner can be ordered and delivered in time.
- › **Remote Management** - Upgrade firmware, transfer settings or install HyPAS Applications to your complete Kyocera fleet centrally, with just a few clicks.
- › **Automatic Alerts** - Receive email notifications, allowing you to troubleshoot problems immediately and keep your fleet working day in and day out.

KYOCERA Device Manager has an intuitive user interface that simplifies and speeds administrative navigation and monitoring of a single device - or thousands.

## SYSTEM REQUIREMENTS

### Operating Systems

- > Windows 7, 8/8.1, 10
- > Windows Server 2008 R2, 2012, 2012 R2, 2016 (32-/64-bit)

### Multiple Browser Support

- > Firefox 53 and higher, Google Chrome 52 and higher
- > Internet Explorer 11, Safari, and Edge for Windows

**Minimum:** 3 GB Ram, 2 Core, 1GHZ CPU

Supports up to 100 devices

**Recommended:** 32 GB Ram, 8 cores 2.2GHz CPU,

1000Mbps gigabit Ethernet Adapter

Supports up to 10,000 devices

**Database:** Microsoft SQL 2008 R2/2012/2014/2016

Express/Standard/Enterprise editions

## KEY BENEFITS OF KYOCERA DEVICE MANAGER

- > **Up-to-date IT Security Features** including password policy settings, import CA-issued certificate, SMTP over SSL support for email
- > **Enhanced audit logs** with more audit events
- > **Supports Multiple Web Browsers** such as Google Chrome and Safari
- > **Automatic alerts and notifications** enables you to resolve a problem before employees are impacted
- > **Remote Deployment** enables HyPAS Applications to be installed and activated remotely on multiple MFPs
- > **Central Firmware Updates** allow scheduling of firmware updates to Kyocera devices anytime day or night
- > **Multi-Set** distribution of device settings or address books to multiple devices in one step
